DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Chan et al. (U.S. 6,358,262).

Chan et al discloses the claimed invention in figures 1, 5, and 6, a round blade (26) mounted on the distal end of an elongated shaft (24) and a suction interface (92) mounted on the proximal end of the elongated shaft (24); wherein the suction interface (92) is for fluidly communicating with the suction source so as to provide a suction at the round blade (26).

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Novak et al. (U.S. 6,379,371) discloses a cutting rounded blade with suction source.
